Re: «N5QSAD», «N5MSCY»

Dear Valued Customer:

The Connecticut Water Company is beginning a water main replacement project on High Street, Ridge Rd., West Main St., Jagger Lane, Johnson Rd. and Bates Lane in Chester the week of June 1, 2009. The water main project is part of our effort to update and improve aging infrastructure in all of our systems.

The water main replacement and associated service work will take approximately four months to complete.

We have made every effort to plan construction of the water main without affecting your water service. Following installation of the new main, we are replacing individual customer service lines from the main to the curb. At that time, a short interruption of your service will be necessary. You will be notified in advance, and it is not necessary that anyone be present at your home at the time of the replacement.

Thank you for your patience and understanding as we work to improve our water main infrastructure in the town of Chester. If you have any questions concerning this project, please contact Keith Leone, Engineering Project Coordinator, at 800-428-3985, ext. 3088.

Sincerely,

A handwritten signature in black ink, appearing to read "C. Patla".
